Hi, could this letter be read at the 5/19 meeting in support of the issue of feral cat TNR?

To the Westminster City Council,

Northern Colorado Friends of Ferals strongly supports the council's backing of Trap-Neuter-Return (TNR) as a legal, effective, and humane strategy to manage outdoor cat populations. We urge you to make TNR legal in Westminster—not for the cats, but for the community.

TNR is essential because it works. Neutered cats no longer breed, fight, yowl, or roam. That means fewer complaints, fewer service calls, fewer deceased animal calls, and lower enforcement costs. It's a straightforward solution to a persistent problem.

TNR also protects public health. Every cat trapped receives core vaccinations, including rabies and distemper. And when kittens are found during TNR operations, rescue groups remove them, have them fixed, and place them in indoor homes—preventing future growth in the community.

This isn't about compassion. It's about choosing the most effective method to reduce costs, complaints, and chaos. Communities that block TNR often end up with bigger problems and higher expenses.

Please vote to make TNR legal in Westminster. It's the smart move.

Sincerely,
Northern Colorado Friends of Ferals
Board Members and Cat Trappers
